### Did You Know?

Crows live in families and are very protective of their babies, just like us.

### Did You Know?

Ravens have big brains, which make them excellent problem solvers, just like us.

### Did You Know?

Owls are "nocturnal," which means they're awake at night. Their large eyes help them see in the dark.

Help birds live happily by never chasing, scaring, or throwing things at them. Let's be kind to each other!

# The "S" Sound

## SNAKES, SILKWORMS, AND SPIDERS

Help Baby Spider find his way back to his mom.

**PRACTICE WRITING THE LETTER "S."**  
It looks just like a squiggly snake!

S	S	S	S	S
S	S	S	S	S
S	S	S	S	S
S	S	S	S	S

### Did You Know?

Snakes come in many different shapes, sizes, and colors. They've been around since dinosaurs were alive, and some can live to be over 50 years old!

### Did You Know?

Silkworms grow and change into awesome moths while inside their cocoons, just like caterpillars who transform into beautiful butterflies.

### Did You Know?

Mother whip spiders snuggle with their babies. Isn't that sweet?

If you spot insects or spiders in your home or classroom, ask a grown-up to help you gently catch them and set them free outside.
